Amar Nagaram, CEO, Myntra

Alok Ohrie, President & Managing Director, Dell Technologies

Resilience & Power

Rahul Dravid, Head of Cricket, NCA, Former Captain, India Men's National Cricket Team

LIVE GENERAL SESSIONS

Starts from 10:00 AM – 11:40 AM IST

Accelerating Digital Transformation

John Roese, President and Chief Technology Officer of Products and Operations, Dell Technologies. - Overnight the pace of Digital Transformation accelerated and what once took years is now being accomplished in weeks or even days. Now more than ever IT has become the essential engine that propels organizations and humanity forward to meet the challenges and opportunities of our data-centric future. Join us to learn more about how, together, we can build a more agile IT to help your organization be ready for whatever comes next.

Resilience and Agility through IT Simplicity

Aongus Hegarty, President, International Markets, Dell Technologies - The data era has arrived – faster than planned. Organizations are accelerating their digital transformation to support a remote workforce and business in a hyperconnected world. It's critical to ensure they're more agile, more innovative, more resilient. Equally critical is the simplicity of IT – and a partner that can create a consistent experience with more choice. Learn how Dell Technologies is doing just that and transforming your business in a data-driven world.

Digital Transformation Index Survey Insights

Amit Midha, President, Asia Pacific & Japan, Global Digital Cities, Dell Technologies - Join Amit Midha as he shares the Dell Technologies Digital Transformation Index (DT Index) results for India and how India organizations compare to our counterparts across the globe.

Digital Innovation in India and Progress Made Real

Alok Ohrie, President and Managing Director, India, Dell Technologies - Join Alok Ohrie as he shares how digital innovation is accelerating in India and how Dell Technologies is geared to help customers & partners in India. Alok will also provide an update on our local Progress Made Real social impact plan initiatives in India.

CEO Panel Discussion: Ready for What's Next!

The current dynamic situation has accelerated digital transformation across sectors and scale and enterprises have embraced emerging technologies in order to stay afloat through successive lockdowns and times of social distancing. Enterprises that were better prepared to implement technology led solutions at a fast pace were able to maintain business continuity, stay agile, face disruption and quickly reinvent themselves.

This CXO conversation at the Dell Technologies Forum 2020 will focus on digital transformation experiences of organizations during 2020 and preparing for what's next in the new normal.

11:50 AM – 12:15 PM

DT Cloud with VMware

Accelerating Innovation with Dell Technologies Cloud

Dell Technologies Cloud has delivered a consistent hybrid cloud experience that in just one short year has driven excitement and helped organizations accelerate their innovation. Join us as to review the current Dell Technologies Cloud offerings and what is new on the horizon. You will also hear from our customer on how Dell Tech Cloud helped them to accelerate their multi-cloud journey.

11:50 AM – 12:20 PM

Primary Storage

Dell EMC Primary Storage Family - Data storage That Takes You From Insights to Innovation

Learn about the latest features across our vast storage portfolio:

- PowerMax – the world's fastest storage array - with Cloud Mobility, mission-critical VMware vVols, Smart DR, and advanced security.
- Get a detailed view of the PowerStore architecture - including an all NVMe design, hardware-accelerated data reduction, unified block/file/vVOL support, microservices-based architecture and an AI/ML-based Resource Balancer.
- Dive into PowerFlex, software-defined storage that is designed to deliver flexibility, elasticity, and simplicity with predictable performance and resiliency at scale.

11:50 AM – 12:20 PM

Dell Digital

Dell IT: Transforming the Technology Experience to Empower Our Workforce Anywhere, Anytime

Enterprises across the globe are moving to a culture of remote work. We need to adapt at scale, with security, to deliver team members seamless access to essential applications, data, and productivity tools from any device, anywhere, anytime. Learn how we're enhancing the technology experience and support to meet the evolving needs of our global workforce to be always ON and connected no matter where they are working from.

12:15 PM – 12:45 PM

CI/HCI

The Latest Trends and News from the World of CI and HCI

This session is not to be missed! We will highlight converged and hyperconverged infrastructure trends and news. From bringing insights into the latest customer demands and market drivers to a preview of the latest product announcements.

12:20 PM – 12:45 PM

Emerging Tech Edge

Outcomes at the Edge: How Organizations are Transforming

A shift in how organizations create value is happening at the Edge. New technologies and communication protocols have enabled real-time data analysis, allowing for near instantaneous insights and consumption models. Come hear how Dell Technologies and their customers are pushing the boundaries of what is possible.

12:20 PM – 12:45 PM

End-User Compute

Enhance Your Remote Work Strategy with the Industry's Most Intelligent PCs

As companies worldwide have expanded their remote workforce, the devices we are using are now more critical than ever. In this session, you will learn more about how our latest PCs, displays, and peripherals enhance collaboration and help workers stay productive.

12:45 PM – 01:10 PM

Data Protection

Mastering Your Multi-cloud Data Protection Journey

Has your company adopted one or more public clouds for your application workloads?

Are your workloads missing out on critical data protection needs?

Are you looking for a consistent, efficient and economical way to protect your data across multiple clouds?

This session provides an overview of Dell Technologies' extensive portfolio of cloud data protection for different use cases, including backup, disaster recovery, long-term retention and replication. Learn about Cloud DR, Cloud Snapshot Manager, Cloud Tier and PowerProtect DDVE – the easy-to-use capabilities of PowerProtect Data Manager that deliver the cost-efficient cloud data protection you need. Find out how we can help you navigate and protect your multi-cloud journey.

12:45 PM – 01:10 PM

Server

Scale for Success: Maximize business outcomes with workload optimized server portfolio

IT teams are being asked to drive better business outcomes with limited resources and shorter time-frames. Having the right technology infrastructure that meets the demanding requirements of advanced workloads is critical for sustainable business success. Dell EMC's

PowerEdge Server Portfolio enables IT teams to address these dynamic workloads challenges with highly scalable architectures, effortless management, and integrated security. Learn how our full portfolio of server solutions powers dynamic workloads from the edge to the hybrid cloud.

12:45 PM – 01:10 PM

**Unified Workspace with VMware
Maximize Rapid Response Efforts with Modern Lifecycle Solutions with Dell Technologies Unified Workspace**

You just went through the most intense and quick workforce transformation, and you did it like a champ. But now it is time to make the most of your rapid response efforts and ensure your IT environment is sustainable and scalable with Dell Technologies Unified Workspace. Learn how you can optimize your IT environment and enhance end user experience with modern deployment, security, management and support solutions.

01:10 PM – 01:40 PM

**Emerging Tech AI
Simplify AI with 5 Fundamental Tasks**

Artificial intelligence and machine learning offer enormous potential for enterprises to drive increased business value, but organizations must start by identifying the right use cases that will deliver the best business outcomes and improve processes and functions. In this session we will share what Dell Technologies is doing with AI to transform our own organization and empower our partners and customers to succeed with AI.

01:10 PM – 01:40 PM

**Overarching Emerging Tech
7 Technology Themes That Will Forever Change Your IT and Business Worlds**

Artificial Intelligence, Edge, 5G, Cloud, Data Management, Security and Augmented/Extended Reality are emerging technologies transforming our world and lives. They are disrupting industries and changing every IT and business landscape. In this session, we explore the interconnected nature and compounding value of bringing these technologies together to alter the future of your business.

01:10 PM – 01:40 PM

**Endpoint Security
5 Things You Need to Know Today to Keep Your Endpoints Secure Tomorrow**

The shift to a more flexible and remote work model has exposed security vulnerabilities at the endpoint, creating new opportunities for cyber criminals. In this session, we will share 5 things you need to do today to strengthen your resilience against attacks both above and below the OS and how you can achieve this with Dell Technologies' comprehensive "Trusted Devices" portfolio, from built-in solutions like Dell SafeBIOS to software and service solutions from VMware Carbon Black and Secureworks.

Live Closing Sessions

01:45 PM – 02:15 PM – Finale Performance & Winner announcements

Join Singer Papon, as he is about to set the virtual stage on fire with his soulful melodies in unplugged version.

02:15 PM – 02:30 PM

Virtual booths visits & close.

Meet the Keynote Speakers:

- **Alok Ohrie, President and Managing Director, Dell Technologies India:** - Alok Ohrie leads Dell Technologies India and is responsible for Sales, Business Strategy and Development, Operations, Marketing, Manufacturing and Government Engagements. Recognized as the architect of Dell's innovative go-to-market strategy in India, Alok spearheaded the transformation of the company into an end-to-end technology solutions player. A keen believer in technology, market and business dynamics, Alok likes to think out of the box and leads by example.
- **John Roese, President & Chief Technology Officer, Dell Technologies:** - Responsible for Dell Technologies future-looking innovation, John Roese is at the forefront of ground-breaking technologies that anticipate customers' needs. Since 2012, John has been instrumental in shaping Dell Technologies' strategy across three of the most transformative trends in the history of IT – Cloud, Big Data and Trusted IT.
- **Rahul Dravid, Head of Cricket, NCA, Former Captain, India Men's National Cricket Team:** - Rahul Dravid is widely regarded as one of the greatest batsmen in the history of Cricket. He is the fourth-highest run scorer in Test Cricket & is only the third cricketer to score 10,000 runs, both in Tests & in ODIs.
- **Aongus Hegarty, President, International Markets, Dell Technologies:** - Aongus is a respected commentator on innovation, leadership, digital transformation, sustainability and diverse & inclusive workforces. He speaks frequently at major global conferences and events. Aongus was recognised as one of the Top 10 Diversity Champions in The Economist Global Diversity List and was invited by the Irish Government to join the Better Balance for Better Business Review Group to recommend how more women can be involved in top level decision making in Ireland.
- **Amit Midha, President, Asia Pacific & Japan I Global Digital Cities, Dell Technologies:** - A highly respected business visionary and an acclaimed thought leader with strong views on emerging technologies, Dell Technologies President for Asia Pacific & Japan, Amit Midha, spearheads one of the most important business initiatives at Dell Technologies – Global Digital Cities.
- **Nick Day, Dell Account Director, Intel:** - Nick is the Dell Account Director, responsible for driving sales with Dell globally. Nick manages a team located around the world aligned to Dell's sales and marketing organizations.

- **Karinne Brannigan, Senior Vice President, International Marketing, Dell Technologies:** - Karinne Brannigan is SVP and CMO at Dell Technologies. Her role is to lead the Marketing teams across Europe, Middle East & Africa, Latin America, Asia Pacific & Japan and Greater China.

CEO Customer Panel Speakers

- **Amar Nagaram, CEO, Myntra:** - Amar Nagaram is CEO, Myntra. He is responsible for executing the strategic vision for the company and delivering a highly engaging and personalized fashion experience to customers. Prior to assuming this role, he was Vice President, Consumer Shopping Experience at Flipkart where he worked on making shopping accessible, delightful and affordable on every connected device.
- **Keshav R. Murugesh, Group CEO, WNS Global Services, Past-Chairman, NASSCOM:** - Mr. Murugesh is a Member on the Board of WNS Cares Foundation (WCF) that focuses on education for lesser-privileged children as the core medium of community outreach and uplift in WNS locations, globally.
- **Mridu Bhandari, Editor – Special Projects, Network18:** - Mridu Bhandari is Editor – Special Projects at Network 18. She has 14 years of multi-disciplinary television media experience. She conceptualizes, scripts and anchors special programmes in various formats in studio and outdoors, as well as moderates panel discussions for TV and digital platforms. She leads many projects across diverse genres on Network 18 platforms (CNBC TV-18, CNBC Awaaz, CNN-News18, News18 India, Forbes India) covering emerging technologies, entrepreneurship, brand stories, personal finance and healthcare.
- **Partha DeSarkar, Wholetime Executive Director and Global CEO, Hinduja Global Solutions:** - Partha DeSarkar is the Chief Executive Officer of HGS and leads the organization across all its geographies. He is also an Executive Director of the HGS Board of Directors.
- **Satyakam Arya, Managing Director & CEO, Daimler India Commercial Vehicles Pvt. Ltd. (DICV):** - With more than 20 years of experience across the automotive value chain and sector, Mr. Arya took over the helm of Daimler India Commercial Vehicles in November 2018 to take Daimler Trucks activities in the strategic Indian growth market to the next level. Leading with a long view and empowering his team are his well-known leadership qualities.

- **Tarun Chugh, Managing Director and Chief Executive Officer, Bajaj Allianz Life:** - Tarun took over the responsibility of leading the company in April 2017. A seasoned industry veteran, Tarun brings with him over 25 years of experience in financial services industry, and has spent over fourteen years in leadership roles within the Indian life insurance sector.
